

# The Improved Productivity Programme

For the Paper and Paper Converting  
Industries

**PAPER LIFE LIMITED**

Specialist Equipment for Paper Users

# What is it?

A specially devised programme to improve the productivity of paper conversion by focusing on the management of moisture in and around paper.

**PAPER LIFE LIMITED**

Specialist Equipment for Paper Users

# How it works

The programme is built on a personal, expert service that has four elements:

1. On site assessments of moisture related problems and opportunities to improve productivity/reduce spoilage
2. On site demonstrations and training in the use of equipment and procedures.
3. Single source supply of a comprehensive range of equipment.
4. Telephone and Internet helpline.
