

## Going Bananas Campaign – Campaign Feedback

---

### Charles Turner & Co Ltd

#### Mill Update:

Step by step approach, no pun intended.

Paper Fed (T Watts & Bud Huspith) held a STF Workshop, off-site, for a cross section of staff, safety reps and shop floor employees, which was very successful. Comments, action points, suggestions etc have been published from the two workshop groups involved.

Next step is to form an action committee to monitor and report upon the key issues identified and to act as a 'formal policing agency' targeting areas and reporting upon findings.

Changed the format of the in-house hazard reporting procedure, which now clearly identify STF hazards and allow for easier monitoring of progress and can act as a measure in identification and rectification. Similarly accidents/incidents/near misses are being clearly identified as to whether they fall in the STF category.
